

Can soccer be a tool for your child's development?

Please join us for an interview to explore your thoughts on sports – with an emphasis on soccer - as a tool for your child or adolescent development. Participate in our study

“Parents' Perceptions of Soccer and Child Development”

Also, we will ask you about the barriers you perceive when thinking of enrolling your sons/daughters on after school sports programs.

By doing this, you can help Sports for development programs in South Florida to better serve the communities.

**Interview at the time
you choose!**

**\$20 Gift Card for
Participation**

**RSVP Dr. Dionne
Stephens**

**305- 348- 8434 or
